

# Planning Your Support

## Easy Read

**Your voice is important when we plan your support.**

Please tell us about your needs and what you want.

Your Support Plan is made with you at the centre.

We will look at your NDIS plan funding to make sure we can give you the services you need.

To make your plan, we may talk to your family, health workers and others, if you say yes.

We will talk with you about supports like:

- learning living skills
- your interests, hobbies and community groups
- travel and transport.

We will also talk about:

- your family and relationships
- your culture, like the food you eat
- your religion or beliefs
- how you like to communicate.

## Your safety and health

---

We check your safety:

- where you live and go
- your personal emergency plan.

We look at your health needs:

- medical needs
- general health
- complex care needs
- allied health, like physio or speech therapy
- health checks
- vaccinations
- teeth and mouth care.

We look for risks, so we can remove them or make them smaller.

We make plans to manage risks, and train our staff in these plans.

## Your Support Plan

---

We review your Support Plan every year.

If your needs change, we will review your plan sooner.

You will need to sign your Support Plan.

We will give you a copy of your Support Plan.
